C:Comment: The cytoskeletal and microfibrillar keratins are classified into two types, the statin IF protein subunit appears to be a heterotetramer of two type I and two type II processed in terminally differentiating epidermis.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      A;Experimental source: tissue neonatal foreskin A;Note: the authors translated the codon CUG for residue 476 as Met R;Chipev, C.C.; Korge, B.P.; Markova, N.; Baie, S.J.; DiGiovanna, J.J.; Compton, J.G.; SCell 70, 821-828, 1992

keratin, 67K type II epidermal - human

N;Alternate names: cytokeratin 2, CK 2; epidermal cytokeratin 2

C;Species: Homo sapiens (man)

C;Pate: 31-Dec-1993 #sequence_revision 31-Dec-1993 #text_change 28-Apr-1995

C;Accession: A44861

R;Collin, C.; Moll, R.; Kubicka, S.; Ouhayoun, J.P.; Franke, W.W.

Exp. Cell Res. 202, 133-141, 1992

A;Title: Characterization of human cytokeratin 2, an epidermal cytoskeletal protein
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               A;Reference number: A44861; MUID:92380238

No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   of hits satisfying chosen parameters:

     Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                           Score
